

Technical material data

Rod PF CC 42 EN 61212

HGW 2088

CARRIER: fine cotton fabric

MATRIX: phenolic resin

MECHANICAL PROPERTIES	unit	test value	norm value
flexural strength	MPa	80	90
tensile strength	MPa	50	-
compressive strength parallel to laminations	MPa	65	80
elasticity module bending test	MPa	7*10 ³	-

ELECTRICAL PROPERTIES			
insulation resistance	MΩ	-	0,5
dielectric strength (1-minute test voltage) at 90°C in oil parallel to the layer direction	kV	5	1
dielectric strength (1-minute test voltage) at 90°C in oil perpendicular to the layer direction	kV/mm	5	-
tracking resistance	CTI	100	-

THERMAL PROPERTIES			
temperature limit	°C	120	(120)

OTHER PROPERTIES			
raw density	g/cm ³	1,4	(1,2-1,4)
water absorption at 3 mm thickness	mg/cm ²	-	8,0

PROPERTIES

- temperature limit 120°C
- good mechanical and electrical resistance
- conducive to mechanical processing
- good mechanical and electrical strength
- conducive to mechanical processing

APPLICATIONS

- mechanical and electrical applications at temperatures up to 130°C
- versatile construction material in rod form
- rollers, bearings and discs for electrical and non-electrical applications

Rev. A – 20.08.2016

The values in () are specific values which are only noted for information; they cannot be seen as a requirement of this norm. The stated values are average values which are confirmed by regular statistical tests and controls. These data are pure representative information and may only lead by an explicit agreement to an assurance for a sales agreement. Directive 2011/65/EU of European Union on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS) became operative as from the 27th of January, 2011. Following substances namely are involved: lead, cadmium, hexavalent chromium, polybrominated biphenyls, polybrominated diphenyl ethers, mercury. We herewith declare that all of our products were manufactured RoHS conformal. As downstream users (i.e., as manufacturer of products), we act in accordance with European Union Regulation 1907/2006 (the REACH Regulation). According to information provided to us by our suppliers, no substances from the latest Candidate List (the List of Substances of Very High Concern, or SVHC List) from the 15th of June, 2015 exist in the materials used by us in concentrations of more than 0.1% by mass.
